

HSE Introduction to incident investigation

**Syllabus Guide**

**Astutis.**

## HSE Introduction to Incident Investigation

The NEBOSH HSE Introduction to Incident Investigation course has been developed jointly between NEBOSH and the HSE. The course will teach you how non complex incidents can be investigated effectively as well as providing good incident investigation techniques.

By learning lessons and making improvements, organisations can avoid similar incidents occurring in the future and improve company performance.

### Overall learning outcomes

- Understand why incident investigations are carried out and how human and organisational factors contribute to incidents.
- Understand how to investigate incidents and confidently carry out an investigation.

### Element Summary

- 1.1: Incident terminology, the moral, legal and financial arguments for investigations and management system requirements
- 1.2: Human and organisational factors
- 1.3: Investigating Incidents
- 1.4: Positive strategies for and the barriers to successful interviews
- 1.5: Advanced incident investigation techniques

### How is Introduction to Incident Investigation assessed?

A 60 minute practical assessment is completed at the end of the course. You will be provided with a pack of evidence and shown a video of three witness interviews. You will be asked to review the evidence, evaluate each interview and produce an action plan that will help prevent a recurrence of an incident.
